

Thanks for your purchase.

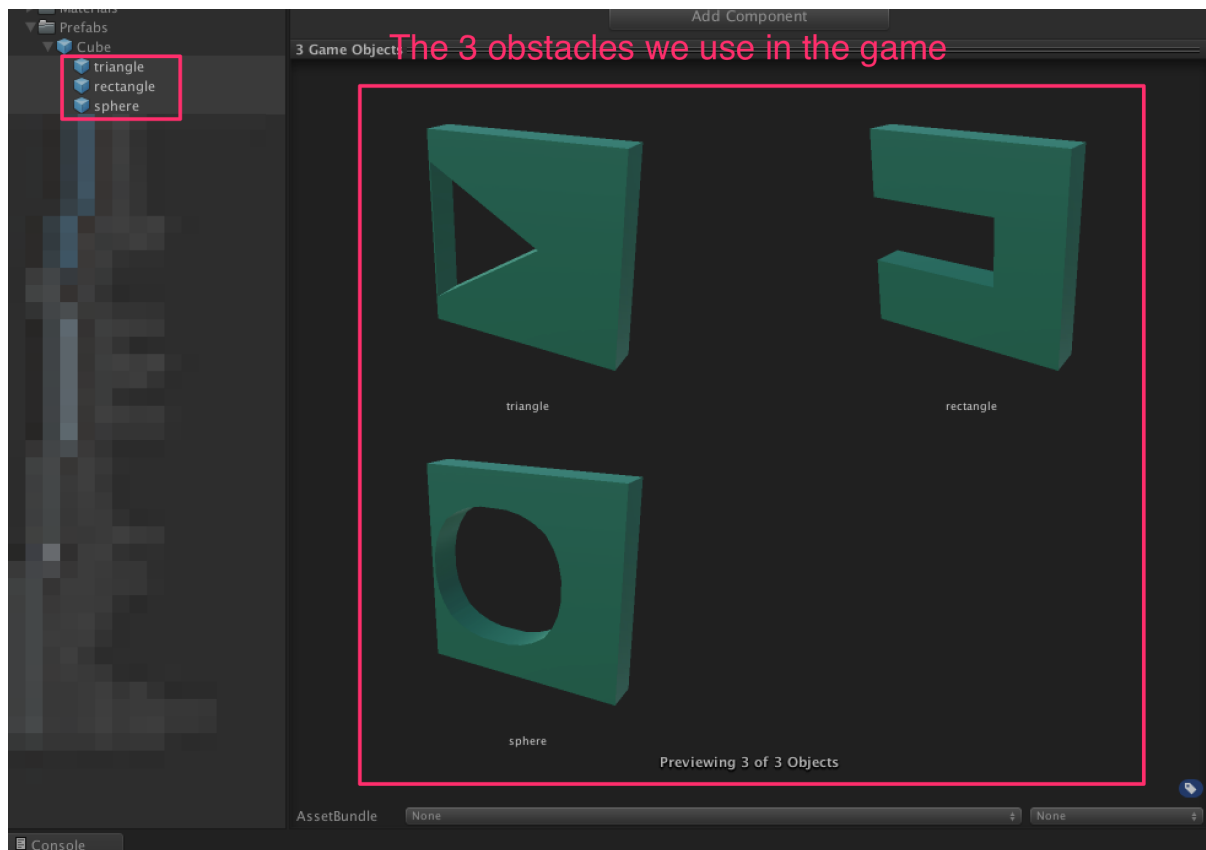

CubeElement is what we spawn to build the floor.

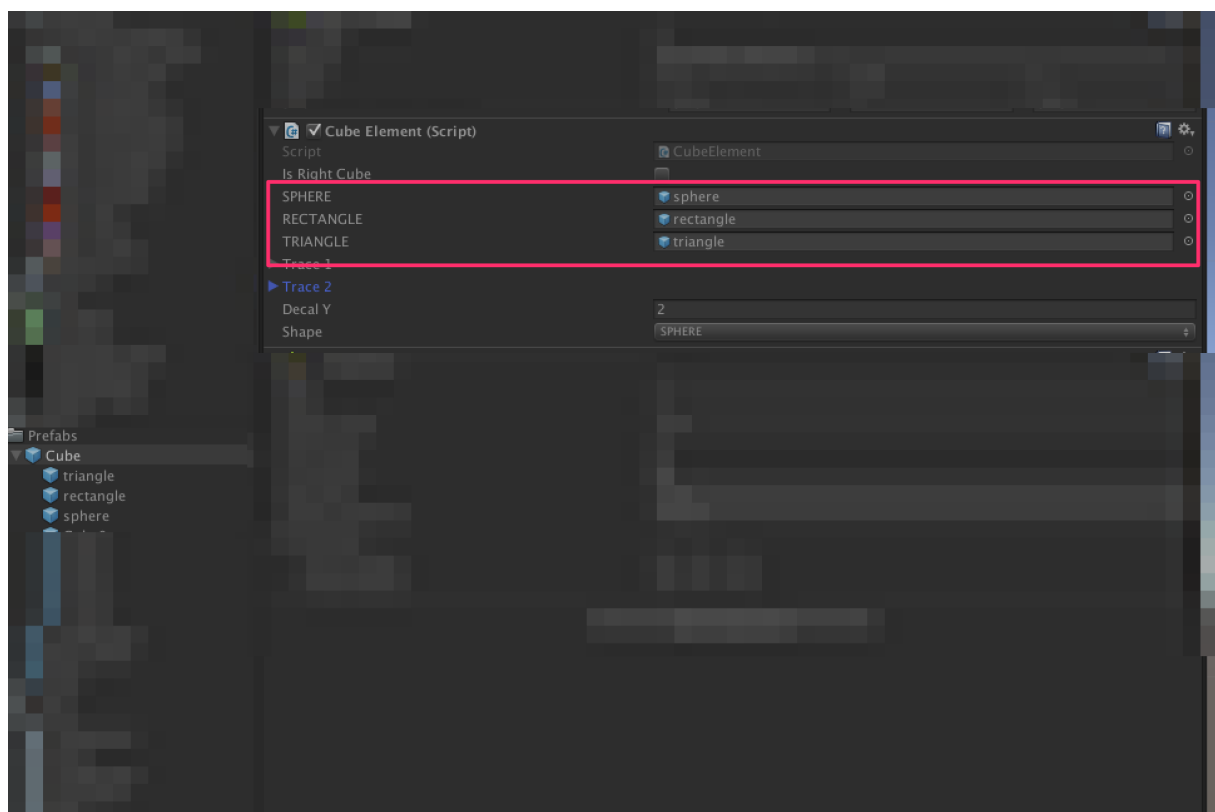

0

Each cube have 3 "obstacles" as child.

You can add new shape just by adding the object to the prefab as child. Remember to create a new variable in the script to have something like this :

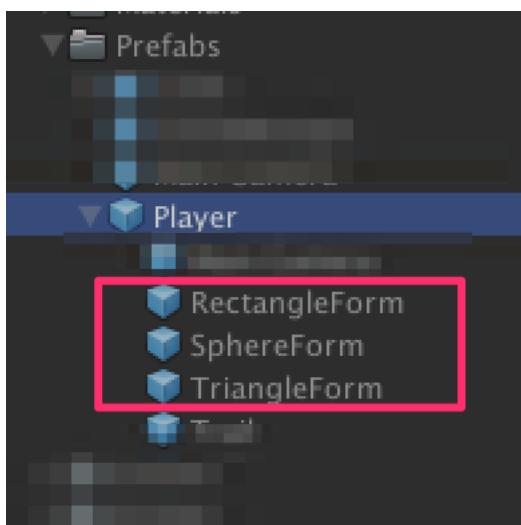

And add the new shape to the player as a child.

The player :

The player have 3 shapes as child. You have to correspond shape from the obstacle with the player to earn a point. If the shape is not the good one you lose.

Here the shapes :

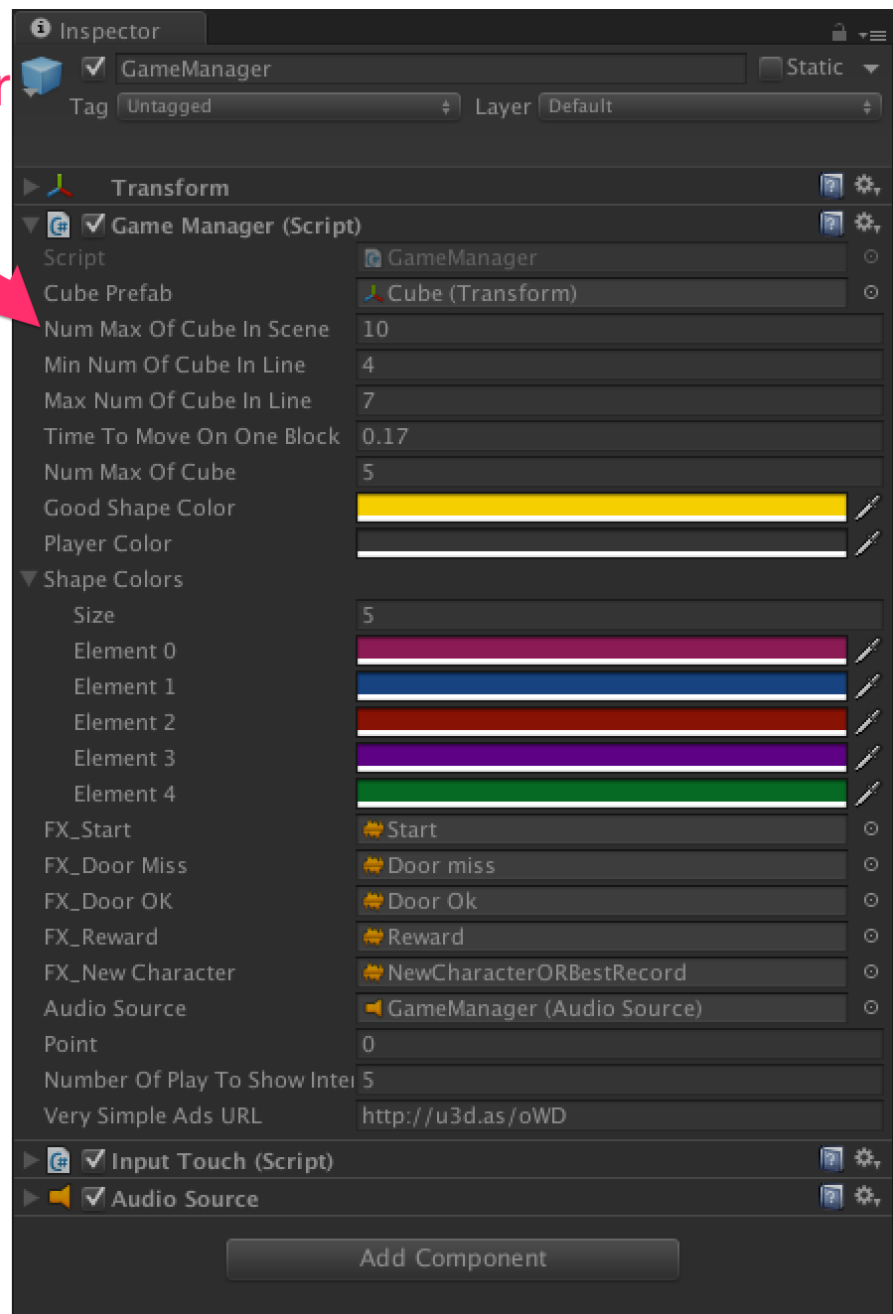

Customize the game play / Reskin :

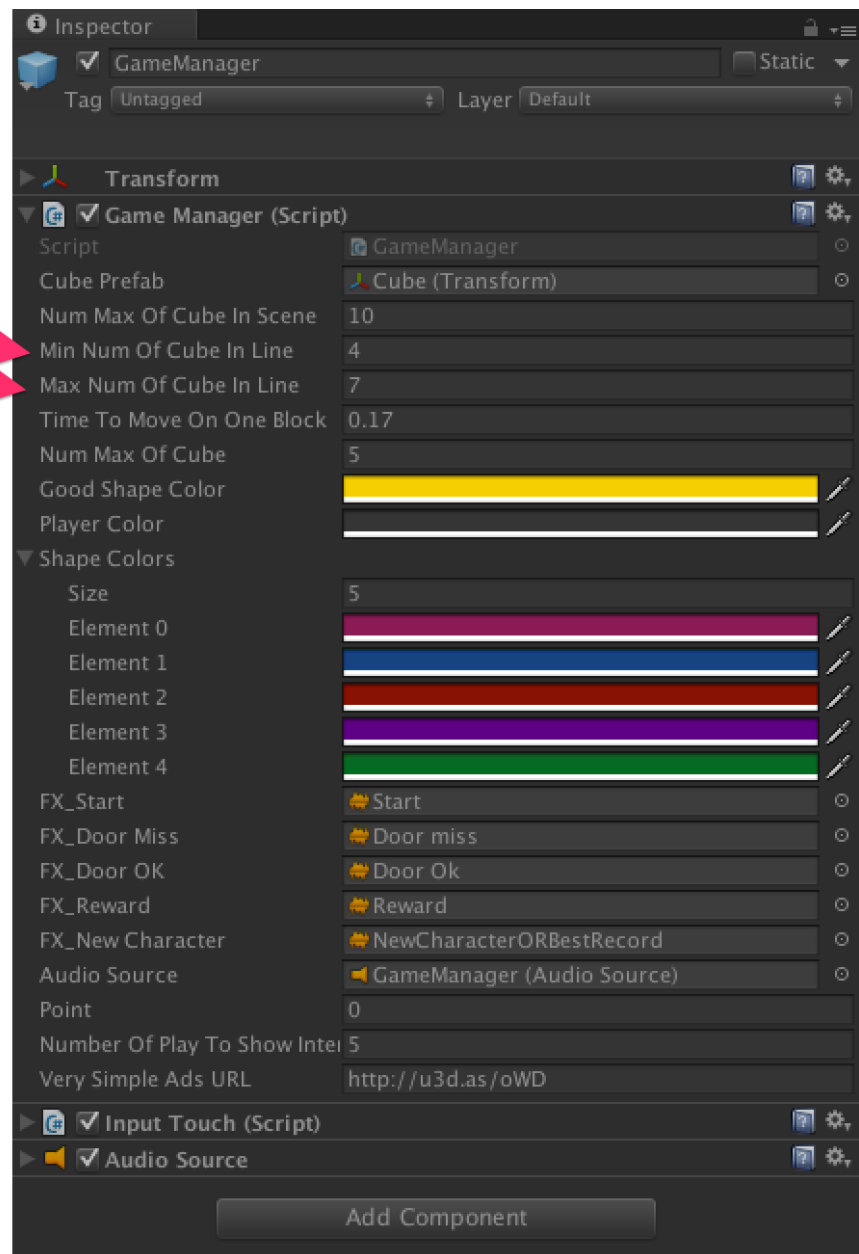

Select the GameManager in the scene view :

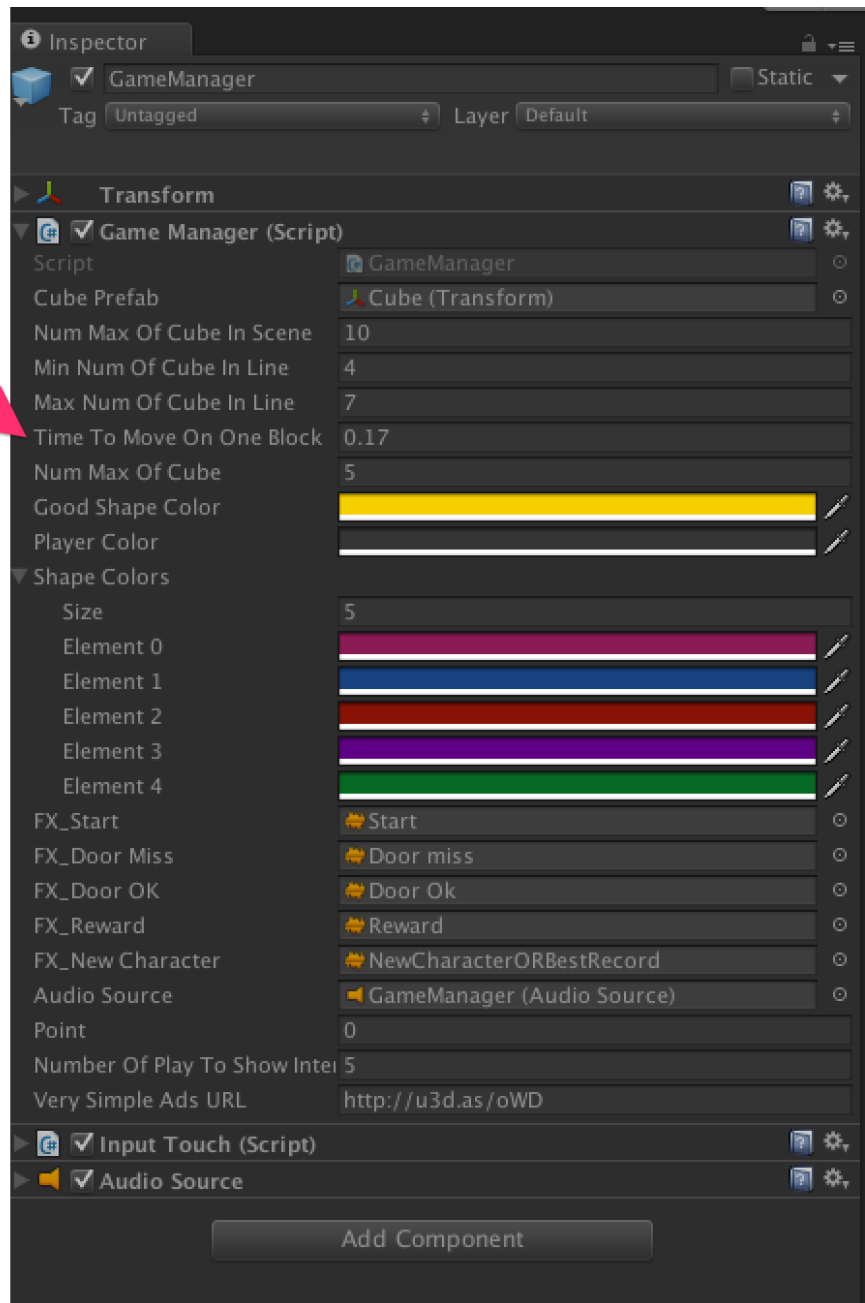

Max number
of cube in
the same
time in the
scene

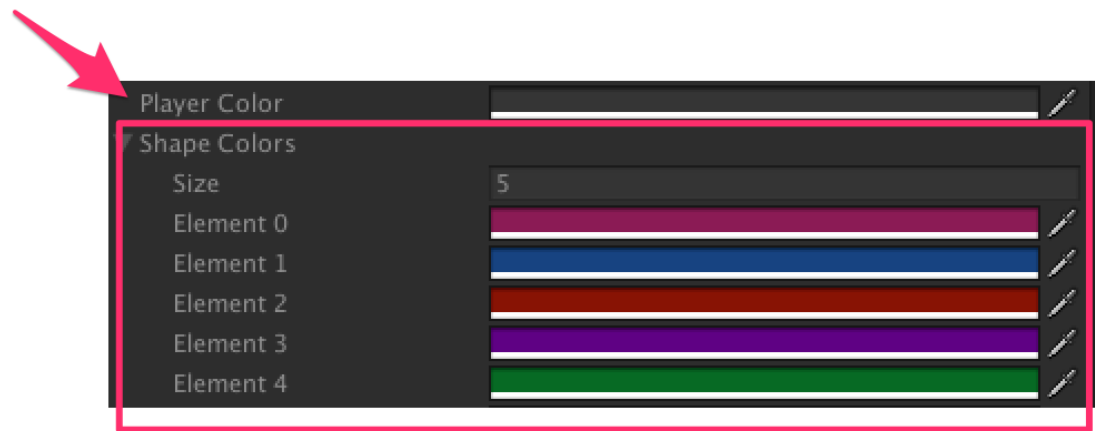

Minimum and maximum number of cube in a "line"

Player speed

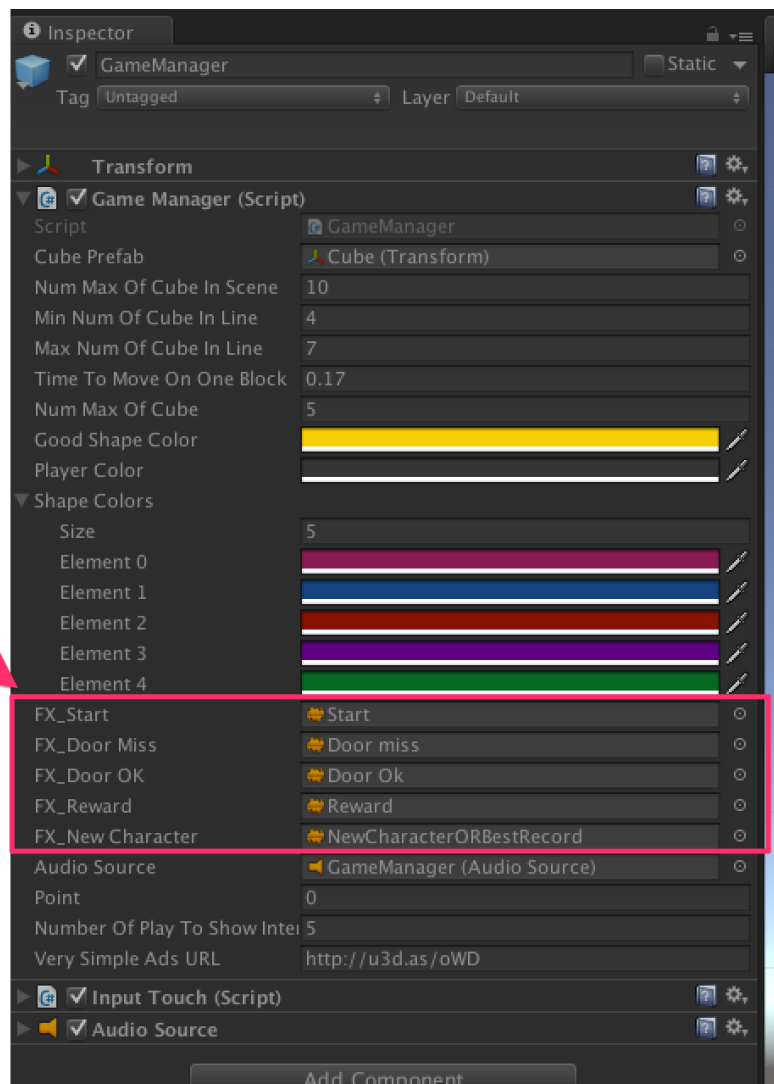

player color

Colors we will chose randomly to colored the obstacles

Audio cliup use
for the FXs
